Saritha Chowdary

AI Software Engineer & Full-Stack Developer

chowdarysaritha311@gmail.com | Andhra Pradesh, India | LinkedIn | GitHub | Portfolio

SUMMARY

Software Engineer with hands-on experience building and testing backend services, REST APIs, and full-stack applications in production environments. Comfortable across Python, JavaScript/TypeScript, and Java-based stacks, with a strong focus on clean architecture, debugging, and reliable delivery.

SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL

Backend: FastAPI, Flask, Node.js, Express.js, Spring Boot, Django, REST APIs, JWT Auth

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL, PostgreSQL, Schema Design

Tools & Cloud: Git, GitHub, Docker, CI/CD, AWS, Microsoft Azure, Postman, Agile/Scrum

EXPERIENCE

Hello Recruiter®, Remote

AI Software Engineer *Oct 2026 – Present*

- Build and validate backend workflows and REST API integrations for a production AI recruiting platform.
- Design reproducible test cases and debug edge cases across services handling text, document, and voice inputs.

AI Software Intern *May 2026 – Sep 2026*

- Designed and executed end-to-end test scenarios across job roles, candidate profiles, and interview workflows.
- Identified failure modes and edge cases in AI outputs; documented findings and validated fixes with engineering.

AI Development Intern · MakerInMe Technologies *Dec 2025 – May 2026, Bengaluru*

- Built and deployed FastAPI services powering multi-agent backend pipelines, containerized with Docker.
- Designed a MongoDB data layer with schema validation for a production automation workflow.
- Owned planning, deployment, and documentation for an end-to-end automation project.

MERN Stack Developer Intern · Edunet Foundation *Feb – Mar 2025, Remote*

- Built a full-stack food delivery web app using React, Node.js, Express, and MongoDB.
- Implemented JWT authentication, payment integration, and order-tracking features end to end.

PROJECTS

FixItNow – Service Marketplace Live Demo

Full-stack, role-based marketplace (Spring Boot, React, MySQL) with real-time booking, chat, and an admin dashboard.

Automated Invoice Parser GitHub

Multi-agent backend pipeline that extracts and validates invoice data with human-in-the-loop review and Excel export.

Credit Card Fraud Detection API GitHub

REST API built with scikit-learn to flag potentially fraudulent transactions in real time.

EDUCATION

B.Tech, Information Technology *Apr 2026*

Vignan's Institute of Engineering for Women, Visakhapatnam — CGPA 8.21

CERTIFICATIONS

- AWS Cloud Support Associate – AWS (2025)
- Applied Generative AI Certification – Infosys Springboard
- AI Fundamentals – IBM (2025)
- Prompt Engineering – Infosys Springboard

ACHIEVEMENTS

Converted from Intern to full-time AI Software Engineer at Hello Recruiter® within 5 months. 20+ shipped personal/academic projects across full-stack and backend engineering.
